Generate Ideas Worksheet

With a partner, answer the following questions. Then, we will share our ideas.

1. **In your own words, describe the societal need that we are attempting to solve.**

2. **What are some possible causes of cancer?**

3. **What information would I need to know to determine a person's risk of cancer from the causes you described above?**

4. **How could I accurately assign a risk factor based on the information I gather?**
